

High Street Barn Appeal

City Council
October 5, 2021

40871 High Street

High Street Barn

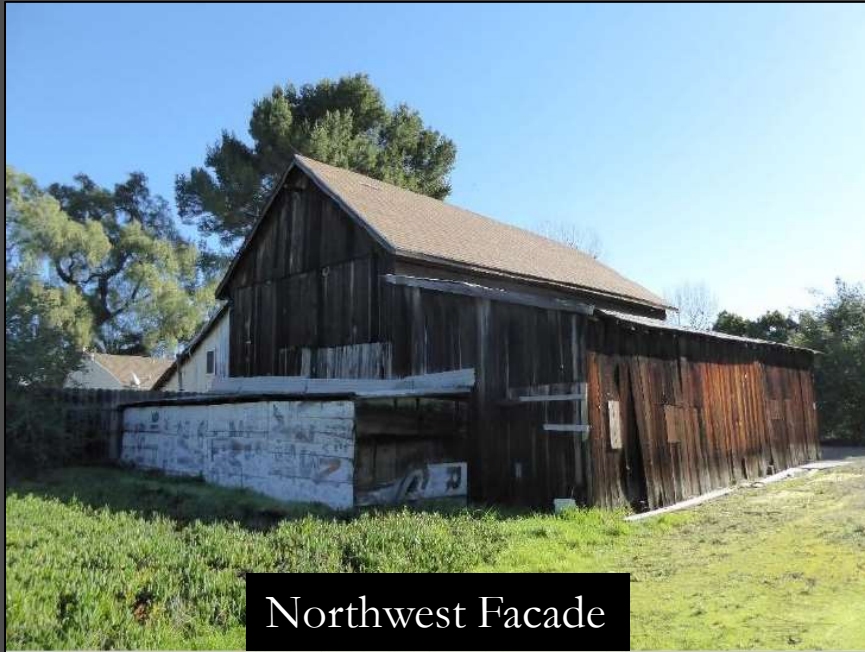

Southeast Facade

Southwest Facade

High Street Barn

Basis for the Appeal – Historic Register Eligibility

- Common forms better represented at other sites
- Does not meet criteria for historic register listing
- Loss of integrity due to alterations
- Property has not been used as a farmstead since the new house was built in 1938

Basis for Appeal - Emergency Demolition

Structural Engineer's Letter:

- “the building poses a significant risk to life safety”
- “it is highly likely the building would collapse during a significant wind or seismic event”

Summary of Key Considerations

1. Does the evidence support the conclusion that the property is a potential historic resource?
2. Does the evidence support the need for emergency demolition of the subject barn?
 - a. Is it an immediate or potential hazard?
 - b. Is demolition the only feasible action to address the hazard?
