

JOB OPPORTUNITY

CONSTRUCTION INSPECTOR

Job Duties

- Reviews construction plans, specifications, encroachment permits, and other plans affecting assigned projects.
- Participates in meetings to discuss construction details and resolves issues with contractors and other agencies.
- Conducts on-site inspections of construction materials, grade elevations, underground facilities, construction safety precautions, minor concrete structures, street light installations, traffic signal installations, traffic control devices, and erosion and siltation control installations to determine compliance with contract plans and specifications, and with city and other governmental regulations.
- Makes field measurements.
- The complete job description can be viewed [here](#).

City of Fremont is an innovative city in the heart of the Bay Area and Silicon Valley, known for clean technology, advanced manufacturing, low crime, excellent schools, quality parks and a diverse population of over 230,504 residents. As a significant economic force in the region, Fremont aims for innovation in municipal government led by City Council and City Manager.

Qualifications

Any combination of education and/or experience that has provided the knowledge, skills and abilities necessary to satisfactory job performance would be qualifying. A typical way to obtain the required knowledge, skills and abilities would be:

Experience/Education: Graduation from high school and four years experience in a field related to street/highway construction; 60 semester units of college education in engineering, construction techniques and methodologies or building inspection may be substituted for two years experience in construction.

Licenses/Certificates: Possession of a valid Class C California Driver's License is required. Failure to maintain this license shall result in discipline up to and including termination.

Is This the Role For You?

The ideal candidate is **highly organized, motivated, and an effective team member** who has **knowledge of standard construction practices** including specifications, methods, materials, and equipment. The incumbent must have the ability to **interpret, implement, and explain rules, regulations, policies, and procedures**. The ideal candidate must be able to **handle multiple priorities, organize their workload, take initiative**, and provide a **creative approach to problem solving**.

Annual Salary Range

\$105,610 – \$128,359
