## Community: Press Release: June 18, 2022 Fatal Traffic Collision

Dear Noe Veloso,

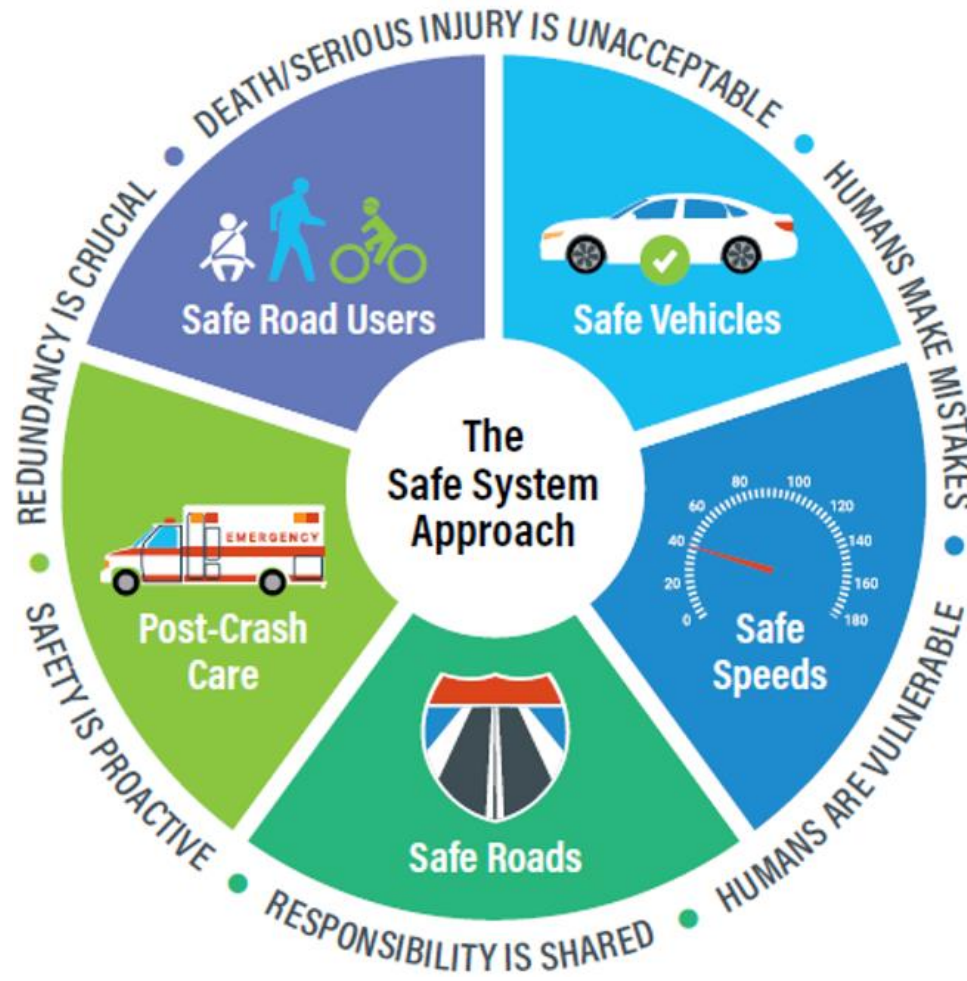

On June 18, 2022, at about 9:08 a.m., Fremont Police Dispatch received numerous calls regarding a multi-vehicle collision on Paseo Padre Parkway near Puttenham Way. The reporting party indicated one vehicle collided with a tree. Within minutes, officers arrived on the scene and located four vehicles.

Based on the preliminary investigation, two vehicles, a Honda Civic and a Dodge Charger, were traveling nearly side-by-side northbound on Paseo Padre Parkway prior to the collision. One vehicle swerved, causing the other vehicle to also swerve. Both vehicles lost control and the Dodge Charger struck a tree on the raised center median. The Honda Civic crossed the center median and collided with two other vehicles traveling in the southbound direction on Paseo Padre Parkway before coming to rest.

The driver of the Dodge Charger that struck the tree, a 74-year-old Hayward resident, was immediately provided emergency medical attention by responding officers. Unfortunately, the driver was pronounced deceased at the scene. No other person involved in the collision suffered any significant injuries.

Slow Down, Look Out for People Walking: September is Pedestrian Safety Month

Fremont, Calif. – September is Pedestrian Safety Month, and Fremont Police Department will participate in activities throughout the month encouraging the safety of people walking.

Based on data projections from the Governors Highway Safety Association (GHSA) <https://tinyurl.com/2p8xcjpk> 7,485 people, or an average of 20 people every day, died after being struck by a vehicle last year – an 11.5% i... See more

Although walking is great in many ways, it can also be dangerous if drivers are not looking out for pedestrians and people walking are not keeping safety in mind.

Public schools in Fremont are back in session this Wednesday, August 17. We want to encourage drivers to be more aware and vigilant and for parents to take a proactive stance on traffic safety. Parents should set aside some time to talk about safety with their kids before they head back to school. Here are some Back to School Traffic Safety Tips for Drivers, Parents, and Students.
