The additional information highlighted below, added to the Minutes, Recommendation 5 of the Housing Element:

5. Adopted Resolution No. 2023-03 amending the General Plan to adopt the 2023-2031 Housing Element (Exhibit "A"); and adopted staff recommendation to use the language proffered by City Staff, in its memo (Green Sheet) dated January 10, 2023, as follows: "Regarding Attachment 2, staff recommends acknowledging the need for an adequate construction workforce through the inclusion of the following language in Chapter 5 of the Housing Element, page 5-6:

Availability of an Adequate Construction Workforce

The availability of an adequate construction workforce is necessary to build the numerous residential developments needed to meet the region's housing goals. Program 42 of the Housing Element commits the City to consulting with stakeholders, including representatives from the residential construction industry **and labor organizations**, on housing policy changes. This provides an opportunity for discussion and consideration of potential impacts to the supply of construction labor when adopting housing policy changes."
