I wanted to take a minute to express my gratitude to the Fremont Chamber of Commerce and to congratulate them. I started a chapter of nonprofit right before the pandemic and if it wasn't for the chamber I don't think we would have been nearly as successful at getting things up and running. From day one, the Chamber staff, board and members were incredibly supportive of Room Redux and were available to answer questions and help guide and direct us to other agencies as needed. They supported us through our first fundraiser and have been instrumental in so many of the local events that we have been a part of. We are all truly thankful for what they do and I for one. I'm grateful to have such an amazing group of people here in Fremont.

Tracy Sarge
